Matteo's Restaurant (Owner: Matthew Cavanaugh) has applied for an intermunicipal transfer of a liquor license (R-12608) which will require City Council approval in addition to the standard PLCB approvals. The restaurant would be open for lunch and dinner and will feature Italian cuisine as well as traditional seafood and steak.

You are invited to attend to meet the owner and to better understand what is being proposed in your neighborhood.

Lawrenceville United and the Lawrenceville Corporation have established a practice, in cooperation with the Lawrenceville Planning Team, with regard to new applicants for liquor licenses and changes in use along the Business District that includes scheduling a public meeting with the applicants and nearby residents to provide an opportunity to hear the details of the proposed new business firsthand and to give the business owner an opportunity to address any outstanding concerns/ questions.
