What makes Lawrenceville unique? Why? For one of Pittsburgh's largest neighborhoods, we have a real sense of community here. People support and look out for one another, and want to contribute to the advancement of our community.

What is was one thing you would like to work on within the neighborhood? Why? Bringing our minority population into the fold. There is really no representation of these communities within our organization. Their needs, wishes, etc. are unknown to community planners.

What is one fun fact that others might be surprised to know about you? I can be pretty goofy.
